

## ROGERS AGAIN ELECTED DIRECTOR OF THE SANTA FE

At Annual Meeting of the Stockholders.

### ANNUAL REPORT SHOWS REMARKABLE PROSPERITY

Topeka, Kas., Oct. 26.—The annual meeting of the Santa Fe Railway Co. was held here today. The purpose of the meeting was to elect three directors, to succeed those whose terms end today.

The annual report of the company was formally read, showing remarkable prosperity. The Phoenix and Eastern railroad has been completed to Dudleyville. The Oklahoma Western line was built from River Bank, Okla., to Okdale, the terminus of the Sierra line. The Arizona and Utah line, extending from Coconino, Ariz., northward twenty-two miles to Chino, was required. Ripley says of the work upon the Belen cut-off: "Work on this line is progressing at three points and it is expected that the entire line from Texico, N. M., to Belen, N. M., will be completed before the close of the present fiscal year. It will avoid two mountain ranges between Trinidad and Albuquerque and will be less exposed to interruption from freshets."

The Arizona and California railway is projected from Wickenburg, Ariz., west across the Colorado river to Bernal. This line affords the cut-off from the Salt river country to all points in California. The work is progressing rapidly.

Henry H. Rogers, Benjamin P. Cheney and George G. Haven, the directors whose terms expired today, were re-elected without contest.

### MADE FAST TIME.

The Fillbusts Were Given a Fast Ride From Chicago.

George Hagenbusch, general agent of the passenger department of the Santa Fe road, is feeling quite ill at ease over the run made by the "Fillbust" special train Saturday night from Chicago. The train, consisting of five cars, left Chicago at 11:45 o'clock Saturday night and made the run to Kansas City in exactly eleven hours, reaching there at 10:45 o'clock Sunday morning, a distance of 454 miles. This time would have been reduced had it not been for an accident to first No. 1 ahead on the Illinois division. The engine that pulled "Scouty" special between Port Madison and Chicago handled the throttle over the division for the "Fillbust" special and made excellent time.

### One on the Conductor.

Colonel Sanders was a passenger on one of the Montana railroads at one time. He had an annual pass on the road, but on this occasion he left it at home. He had traveled the same route many times before and was well known to the conductor. When the official came around for tickets the conductor told him of his forgetfulness. The conductor, however, was obdurate; he must have ticket or money. The conductor rather than have a scene, finally pulled out a five-dollar bill, which was ample to cover the expense of the trip. It was a very ragged affair—all torn and faded.

"What a fine looking bill to give me," growled the conductor.

Colonel Sanders was, by this time thoroughly nettled.

"Well," he cried out in a voice that could be heard all over the car, "if you don't like it, turn it in to the company!"

The laugh that went up was at the expense of the conductor.

**Year's Casualty Record.**

Washington, Oct. 26.—During the twelve months ending June 30, 1935, 588 persons were killed and 13,793 were injured as a result of accidents on railroad trains of the United States, according to the report of the interstate commerce commission, issued today.

Comparison with 1934 shows an increase of 11 killed and 4,123 injured among passengers and employees, the increase in killed being wholly among passengers, the number of employees killed showing a decrease of 106.

Damage to property in these accidents is estimated at \$2,419,617.

**RUSHING WORK ON NEW SOUTHWESTERN DEPOT**

Work is now being pushed by Contractor Frank Powers on the office building of Phelps-Dodge & Co., on the northwest corner of Stanton and Franklin streets, says the El Paso Times.

The building will be the headquarters for all the enterprises owned by Phelps-Dodge & Co., and the building will be occupied by 400 officials and employees of the company.

**"Hot Water" Insanity Cure.**

Tacoma, Wash., Oct. 26.—Experiments recently conducted at the Western Washington hospital for the insane at Stellacom show that the hot water cure for insanity is proving as successful here as in the eastern asylums, where its use is regularly established.

Dr. Van Zandt, superintendent of the asylum, announces that he will ask the next legislature for an appropriation of \$10,000 to install a complete hydrostatic system in the different wings of the asylum. He expresses the belief that, with this addition, he can increase the percentage of cures by 50 per cent.

So far, he has only been able to use iron bathtubs, but he considers that wonderful results have been obtained from the limited experiments already tried with them.

The hot-water treatment has responded quickly, showing immediate improvement, almost without exception.

## YARDMASTER TEN EYCK GOES TO HOT SPRINGS

MADE SUPERINTENDENT OF TERMINALS FOR IRON MOUNTAIN ROUTE.

The many friends in this city of Clarence Ten Eyck, who has been local yardmaster for the Santa Fe for the last four years will regret very much to hear that he has accepted a position which will take him away from Albuquerque.

Mr. Ten Eyck has been made superintendent of terminals for the St. Louis, Iron Mountain and Northern railway, better known as the "Iron Mountain Road" at Hot Springs, Arkansas.

This is distinctly in the nature of a promotion for Mr. Ten Eyck, who is to be congratulated on his appointment. He is a thorough going railroad man who has won the good opinion of his superiors in discharging the duties of yardmaster here. He came to Albuquerque from La Junta where he previously held the position of yardmaster.

Yard Foreman Keith, who has been employed by the Santa Fe here in numerous capacities for the past twelve years will succeed Mr. Ten Eyck as yardmaster.

Mr. Ten Eyck, who has recently completed a new home here will not move his family at present. He left last night on No. 8 for the scene of his new duties at Little Rock.

### NO ACCIDENTS IN NATURE.

Every Calamity, No Matter How Great Has a Definite Beginning.

There are no accidents in nature. The avalanche that without a moment's warning rushes headlong down the mountain side is not an accident.

For years previous tiny atoms have been crystallizing, and adding their minute weight to the mass which left its base when the accumulation reached a certain point.

Neither is baldness an accident. The infinitesimally small germ which is the cause of dandruff and baldness, feeds silently and long before the result is seen.

The small germs which thrive on the scalp and which are the cause of Baldness and Dandruff cannot exist, however, when Newbro's Herpicide is applied.

Sold by leading druggists. Send 10c. in stamps for The Herpicide Co., Detroit, Mich. B. H. Briggs & Co., special agents.

### SULTAN FILES A PROTEST.

Demands That Powers Cease Interfering in His Affairs.

Constantinople, Oct. 26.—The porte has addressed a note to Baron von Cille, Austro-Hungarian ambassador, protesting against the presence at the club of the financial commissioners of the powers and demanding the cessation of interference by the powers in the internal affairs of Turkey.

Replying to a collective note presented by the six embassies at Constantinople, September 26, which said that the decision of the powers to assume control of the finances of Macedonia was undesirable, the Turkish government reiterated what it regarded as insuperable objections to the scheme. Another collective note was presented October 7, when the financial powers proceeded to Iskub.

My Dear Sir: Your letter, with notice, has just reached me. I was aware from my policy, that I would be entitled to a "dividend" at this time, but I had no knowledge upon which to base an opinion as to the amount of the dividend. I certainly did not expect that it would be anywhere near the amount you mention (\$24.15 cash). This is nearly one-eighth of my annual premium, \$204.50. I am more than pleased with this showing. I inclose herewith check for \$204.50. The present dividend, and subsequent ones—unless otherwise instructed—will be left to purchase additional insurance. You know we have to protect the wife and babies, even if we have to go without a vacation ourselves.

I hope to have the pleasure of meeting you here soon.

Very sincerely,

W. V. WHITMORE.
